

## THE BLUE TRAVELER

## Activity 1: A water system without human influences

Station	How many students reached this station?	How many students reached this station more than once?	What is the most common phase of matter for water at this station?	In which sphere does the station mostly belong?	What role does this station play in the water system? (can have more than one)
Clouds					
Animals					
Plants					
Ocean					
Rivers					
Groundwater					
Soil					
Lakes					
Glacier					

Phase – solid, liquid or gas

Sphere – atmosphere, lithosphere, biosphere, hydrosphere

Role – reservoir, user, polluter, water treatment [Can have more than one role]
